Architectural Pendants

# Architectural Pendants

- Seamless design with no visible lines or hardware
- Interchangeable TIR optics ranging from 12° to 50°
- Compatible with standard MX downlight trimless trims

The MX Pendant provides elegant, architectural illumination built on the powerful MX platform. Modular ingenuity transforms the expansive options and performance of the downlight into specification grade round or square pendants.

### Seamless Compact Design

Beautifully constructed from specification grade die-cast aluminum with architectural grade trims in specialty finishes

### Consistent Family Performance

Single platform provides uniform color and consistent powerful performance across the entire family

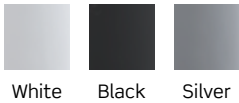

### Dynamic Configurable Capabilities

Available in 9", 12" and 15" housings with cable, pendant and surface mounting options

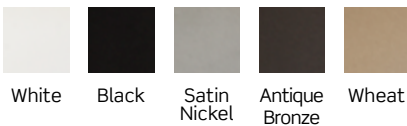

### Electrical Data (Nominal Delivered Lumens)

L0		■ 950lm ■ 10W
L1		■ 1300lm ■ 16W
L2		■ 1550lm ■ 20W
