LD4 Downlighting for Commercial Spaces

Built with simplicity in mind, the LD4 downlight offers great illumination in up to 1500lm with 2 Step MacAdam for tight binning. With a design that takes up less than 4-inches of plenum space, the LD4 provides 90 CRI, wet location, and dimming down to 1% standard. With a deep regress trim and ultra-thin flange in round or square, the LD4 provides aesthetic details and offers visual comfort.

Architectural Style Trims

Die-cast aluminum trims with an ultra-thin flange of only 2 millimeters thick

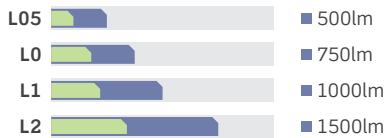

Built For Premium Dimming

Expansive dimming options down to 1% with no added cost

Shallow Housing

With a shallow housing that's less than 4-inches tall, LD4 offers easy integration into tight plenum spaces

Electrical Data (Nominal Delivered Lumens)

*Note: Lumen based on round trim/3000k/92CRI.
