

Gravity[™]

High Performance
Track Lighting

High Performance Accent Lighting

- Up to 4000 delivered lumens
- Field changeable TIR optics from spot to wide flood
- Integral snoot and accessories

Designed on a single platform, the new luminaires are expertly engineered to complement the award-winning Gravity family of downlights, cylinders and recessed multiples. Ideal for high ceiling commercial and architectural applications, Gravity track features a sleek design with no visible hardware or heatsink.

Modern Dimming Capabilities

0-10V dimming option via Pulse Control Track

Powerful Light Distribution

2 SDCM LED light engine delivering up to 40,000 CBCP

Superior Optical Performance

Precision beam control and aiming via custom TIR optical technology

Compatible Track Systems

- Intense Single Circuit or Two Circuit Track System
- Pro-Series 120V or 277V
- Pulse Control Three Circuit Track (0-10V bus)
- J-Type or L-Type adapter option
