

XS

2-Inch Family

Downlight, Adjustable & Wall Wash

2-Inch Downlighting Solutions

- Dual purpose housing in remodel or new construction
- All-in-one driver with 0-10V and phase dimming
- 2 SDCM ensuring color consistency and quality
- Smooth 1% dimming standard

Delivering uniform and discrete glare-free illumination, the XS downlighting family offers leading LED technology in a single, modular platform. Designed with quality and convenience in mind, XS offers the ultimate in contractor friendly installation.

One Platform - Maximum Flexibility

The single platform is available in downlight, adjustable & wall wash luminaires. Interchangeable round and square trims provide the ultimate in flexibility.

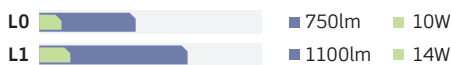

Hassle-Free Installation

The modular light engine allows for simple field replacement & upgrades. Easily access the trim assembly and driver from below the ceiling for maintenance or enhancements.

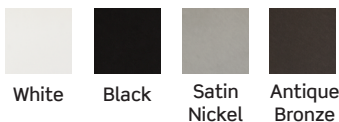

Discrete And Powerful

Discrete in form, the 2-inch luminaires feature a 2 SDCM LED light engine and multiple CCT options at 92 & 82 CRI. Field changeable optics are available in 18° spot, 24° narrow flood and 36° flood.
